

# NH GIVES MEDIA TOOL KIT

On June 9–10, people across New Hampshire will come together for 24 hours of giving, and Big Brothers Big Sisters is honored to be part of it. Every gift helps create something powerful: a consistent, caring mentor in a young person’s life.

### SUPPORT YOUTH LIKE LOGAN

When Logan first shared what he was looking for in a Big Brother, he hoped for someone who could spend time with him, help him manage his emotions, and join him in the activities he loves - especially science projects. Together, Logan and Luke have navigated countless adventures, building companionship, dependability, support, and genuine care for one another along the way.

One caring adult can change the trajectory of a child’s life. I’ve seen firsthand how powerful mentorship can be through my experience as a Big with Big Brothers Big Sisters.

Many of the youth served by BBBS are facing challenges like family instability, academic struggles, food insecurity, or feeling isolated and unsupported. Sometimes, what makes the biggest difference is simply having someone who consistently shows up for them.

Right now, children across New Hampshire and Vermont are waiting to be matched with a mentor. During NH Gives, your support helps Big Brothers Big Sisters recruit more mentors, create more matches, and ensure kids have access to the encouragement, stability, and opportunities they deserve.

Today, I’m asking you to make a donation to Big Brothers Big Sisters through NH Gives. Your gift will help connect more young people with a caring mentor and ensure fewer kids are left waiting for support.

Please join me in investing in the power of mentorship today!
